Kansas Racing Commission

Notice of Hearing on Proposed Administrative Regulations

A public hearing will be conducted at 9 a.m. Friday, February 2, in the Kansas Racing Commission's conference room, 3400 Van Buren, Topeka, to consider the adoption of proposed permanent regulations of the Kansas Racing Commission. This 60-day notice constitutes a public comment period for the purpose of receiving written public comments on the proposed regulations.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and economic impact statements in an accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting the secretary at the Kansas Racing Commission, 3400 Van Buren, Topeka, 66611-2228, (913) 296-5800.

A copy of the full text of the regulations and the economic impact statements may be reviewed or obtained at the commission office. The following is a summary of the proposed amendments:

K.A.R. 112-3-19. Background investigations. The amendments to this regulation set out those individuals and entities found to be material to the racing program who shall submit to a background investigation. The list of individuals and entities has been amended to conform to the new list of licensing categories set out in K.A.R. 112-4-1. The only substantial changes were to: 1) include a licensing category for those individuals working as backups to any racetrack officials needing to be backgrounded, and 2) to require that all persons listed in this regulation must complete a background investigation as designated by the commission before assuming any official duty. Other additions list individuals or entities who were inadvertently omitted in the original draft of the regulation and have received background investigations in the past.

Economic impact: There is a cost to the licensee of \$41 for fingerprint cards that are used by the KBI. For FY 1995, a total of \$92,959 was paid to the KBI for fingerprint checks. The Racing Commission paid \$1,064 for background checks on commission employees for FY 1995. Also, in FY 1995, the commission made quarterly payments to the KBI totalling \$366,368 for background investigations related to track activity. The amount paid for this service is set by the Division of the Budget on a yearly basis.

K.A.R. 112-4-1. Occupation licenses. The proposed amendments to this regulation are the result of the commission's approval to adopt a procedure for simplification of occupation licensing. In the past, a license was issued for each occupation (approximately 70 separate licenses). Under the simplified procedure, nine licensing categories have been created, separate licenses will not be grouped under one of the nine categories, and a license will be issued under the name of the appropriate license category. There are approximately 35 licenses that do not fall under one of the nine categories and will continue to be issued as separate licenses.

Economic impact: The Racing Commission bears the expense of running an Association of Racing Commissioners' International (ARCI) computer check on each licensee, which is done on an annual basis. The commission pays \$13,000 per year for membership dues into the ARCI services, and an additional monthly fee of approximately \$75. The monthly fee is based on the number of licensees processed through the service each month and, therefore, is not a set monthly fee. The commission also bears the expense of administrative processing of licenses, validation forms and validation stickers as well as administrative costs for processing fingerprint cards. Administrative costs cannot be calculated. Each licensee will bear the expense of purchasing an occupation license, which ranges from \$3 to \$75. The licensee also pays a \$41 fee for one set of fingerprint cards.

K.A.R. 112-5-1. Horse racetrack officials. The list of horse racetrack officials has been amended to conform to the new licensing categories set out in 112-4-1. A new category has been created for backup positions to each of the horse racetrack official positions, and anyone working as a backup will be licensed as such. A new subsection (f) has been added that allows for a substitute to be appointed by the organization licensee and approved by the stewards in the event an official is unable to serve at a particular performance. A new subsection (g) sets out the procedure to be used when a position becomes permanently vacant and a conditional appointment is made pending a satisfactory background investigation.

Economic impact: The economic impact of this regu-

lation cannot be measured.

K.A.R. 112-5-2. Commission officials, stewards. The only amendment to this regulation was to delete subsection (c), which was language regarding the procedure to be used in the event of a vacancy among the horse racetrack officials. The language has been more appropriately incorporated into 112-5-1, which deals with similar issues. All other changes regard organization and style.

Economic impact: There is no economic impact as a result of this amendment.

K.A.R. 112-6-1. Greyhound racetrack officials. The list of greyhound racetrack officials has been amended to conform to the new licensing categories set out in 112-4-1. A new category has been created for backup positions to each of the greyhound racetrack official positions, and anyone working as a backup will be licensed as such. A new subsection (f) has been added that allows for a substitute to be appointed by the organization licensee and approved by the judges in the event an official is unable to serve at a particular performance. A new subsection (g) sets out the procedure to be used when a position becomes permanently vacant, and a conditional appointment is made pending a satisfactory background investigation.

Economic impact: The economic impact of this regulation cannot be measured.

K.A.R. 112-6-2. Commission officials, racing judges. The only amendment to this regulation was to delete subsection (c), which was language regarding the procedure to be used in the event of a vacancy among the greyhound racetrack officials. The language has been more appropriately incorporated into 112-6-1, which deals with similar issues. All other changes regard organization and style.

Economic impact: There is no economic impact as a

result of this amendment.

Notice of Commencement of Negotiations for Architectural/Engineering/Planning Services

Notice is hereby given of the commencement of negotiations for professional services for a watershed assessment of urbanization and its impact on wetland and riparian resources in Johnson County, Kansas. Services are being sought for both Phase 2 and Phase 3 of the project.

Phase 2 includes a watershed assessment study, which will focus on selected watersheds in Johnson County and will include an inventory of wetland and riparian resources and an evaluation of the impact of current land use policies and practices on wetland and riparian resources. Development of urban policy and practice alternatives that are compatible with the conservation of these resources, while addressing other land use objectives, will also be explored.

Phase 3 includes dissemination of project findings, conclusions and policy options to local planners and decision makers through area workshops and demonstration pro-

iects.

A brief description of the anticipated scope of work for Phase 2 and Phase 3 is as follows:

- Select watersheds to be included in the assessment by an interagency team in consultation with project consultant.
- Gather and evaluate information on the nature and extent of wetland and riparian resources within the study areas. Wetland and riparian types will be characterized and the extent of these resources relative to other land uses determined.
- Review local, state and federal authorities which can have a direct impact on wetland and riparian resources. Applicable policies and practices will be evaluated as to the nature and extent of their relevance and potential impacts to these resources.
- Examine specific examples in the study area of how wetland and riparian resources have been impacted by urban development, as well as anticipated impacts given existing development patterns and policies.
- Evaluate alternative policies and management strategies for their economic and environmental ramifications in the context of current policies, strategies and growth trends.

- Develop a set of suggested land use policies and management strategies for the study area to serve as guidelines for local units of government in carrying out their local land use planning and management authorities.
- Prepare a final project report detailing the assessment process, findings, conclusions and recommendations.
- Participate in an area workshop or workshops to disseminate project results and findings, conclusions and policy options to local planners, developers, land use managers and decision makers via oral presentations and printed informational material.
- Participate in developing and conducting demonstration project or projects within the study area to provide a "hands-on" application of recommended management practices for wetland and/or riparian areas to serve as an educational tool.

The scope of work for the consulting services and project activities will be performed with input and oversight from an interagency work group composed of federal, state and local representatives knowledgeable in the subject matter.

This work is part of a project funded with federal grant funds from the U.S. Environmental Protection Agency. Funds currently being considered for these phases of the

project are between \$90,000 and \$120,000.

If interested, submittals of qualifications should be forwarded to Stephen A. Hurst, Kansas Water Office, 109 S.W. 9th, Suite 300, Topeka, 66612-1249, by 5 p.m. Friday, December 15. Submittals should be in the following format:

- A. Business name, address, phone number and contact person.
- B. General description of business.
- C. Qualifications of key personnel.
- D. Expertise in subject area (wetland and riparian area assessment and evaluation, wetland and riparian area planning, land use planning, resource conservation and management, etc.).
- E. Previous projects of similar nature (provide name of client and brief description of project).
- F. General description of your approach to a watershed assessment for wetland and riparian areas conservation as outlined in the project description.
 - 1. Overall concept for the assessment process.
 - 2. General description of the planning process to be utilized.
 - 3. Content/characterization of the final project report (include a suggested table of contents).
 - 4. Anticipated time needed to conduct the watershed assessment and anticipated cost range (briefly describe the major assumptions affecting your estimates).

K.A.R. 25-1-1, which is proposed for revocation, covers the net worth requirement for obtaining a warehouse-man's license. The statute it is based upon, K.S.A. 34-228, is direct and needs no further clarification. There will be no economic impact as a result of this revocation.

K.A.R. 25-3-3 covers testing and approval of railroad hopper scales. The proposed revision would enact K.S.A. 83-304, passed in 1988, which placed responsibility for this function under the Kansas Department of Agriculture. There will be no economic impact as a result of this amendment.

All interested parties may submit written comments during the 60-day notice period prior to the hearing to the Director, Kansas State Grain Inspection Department, P.O. Box 8368, Topeka, 66608. Notice of Hearing on Proposed Administrative Regulations

The Kansas Department of Health and Environment, Division of Environment, Bureau of Air and Radiation, will conduct a public hearing at 10 a.m. Wednesday, January 31, in the auditorium of the Topeka-Shawnee County Health Agency, 1615 W. 8th, Topeka, to consider the adoption of new permanent air quality regulations, K.A.R. 28-19-645, K.A.R. 28-19-646, K.A.R. 28-19-647 and K.A.R. 28-19-648, and the revocation of existing regulations K.A.R. 28-19-45, K.A.R. 28-19-46 and K.A.R. 28-19-47. These air quality regulations apply to open burning in the state.

Revocation of K.A.R. 28-19-45 and adoption of K.A.R. 28-19-645. K.A.R. 28-19-45 imposes a general prohibition on open burning of any materials. The existing language is being condensed and the regulation is being renumbered as K.A.R. 28-19-645. The proposed changes are not substantive and will not have an economic impact.

Revocation of K.A.R. 28-19-46 and adoption of K.A.R. 28-19-646. The title of the regulation is proposed to be changed and it will be renumbered as K.A.R. 28-19-646. These changes are not substantive and will not have an economic impact.

Revocation of K.A.R. 28-19-47 and adoption of K.A.R. 28-19-647. K.A.R. 28-19-47 exempts certain open burning operations from the general prohibition on open burning established at K.A.R. 28-19-645, provided that certain information is made available and certain conditions are met. Exempt activities include agricultural burning and necessary nonagricultural burning such as safety flares and fire-fighting training. Significant revisions to the reg-

ulation include moving the agricultural burning operations from the existing open burning regulation to new proposed regulation K.A.R. 28-19-648, clarifying the requirements related to open burning for nonagricultural purposes, and renumbering the regulation to K.A.R. 28-19-647. There will be no significant economic impact from the proposed revisions to K.A.R. 28-19-647.

K.A.R. 28-19-648. New regulation K.A.R. 28-19-648 is being adopted to clarify the conditions under which agricultural open burning operations are exempt from the general prohibition established at K.A.R. 28-19-645. These conditions require that notification must be given to local fire authorities, unless the local governing body has adopted a policy that notification is not required; burning may not create a traffic or airport safety hazard; appropriate highway or traffic officials must be notified if smoke may blow toward a roadway; and burning must be supervised until extinguished. The regulation further provides that local authorities may adopt whatever additional restrictions or requirements deemed appropriate. New regulation K.A.R. 28-19-648 does not impose any additional economic burden upon state or local government or regulated entities. The elimination of duplicative reporting requirements to state and local government should result in cost savings to implementing agencies and regulated entities.

The time period between the publication of this notice and the scheduled hearing constitutes a public comment period for the purpose of receiving written comments on the proposed regulations. All interested parties may submit written comments to Gary Miller, Bureau of Air and Radiation, Kansas Department of Health and Environment, Forbes Field, Building 283, Topeka, 66620. All interested parties will be given a reasonable opportunity to present their views orally during the hearing. In order to give all parties an opportunity to present their views, it may be necessary to require each participant to limit any oral presentation to five minutes.

Copies of the proposed permanent regulations and the economic impact and environmental benefit statements may be obtained by contacting Wendy Willoughby, Kansas Department of Health and Environment, Bureau of Air and Radiation, (913) 296-1550. Questions pertaining to these proposed regulations should be directed to Gary Miller, (913) 296-1547, or Don Schuyler, (913) 296-1574.

Any individual with a disability may request accommodation in order to participate in the public hearing and may request the proposed regulations and the economic impact and environmental benefit statements in accessible format. Requests for accommodation should be made at least five working days in advance of the hearing by contacting Rob Bradford, (913) 296-1587.
